

2022: A YEAR OF LEADERSHIP

Writers Collective of Canada (WCC) is recognized as a leader in arts-health on several fronts.

FUNDRAISING

We increased our funding budget by 30% in 2022 through strategic application of public and private grants and optimization of partnerships.

GOVERNANCE

We expanded and diversified our Board of Directors to nine men and women in 2022 and revised our Board Governance manual.

STRATEGY

All staff engaged in a strategy session to align every aspect of our work with vision, mission, and goals. At year-end, we took stock and planned for the future.

TALENT

Our staff doubled in 2022 and we engaged experts in corporate governance; diversity, equity and inclusion (DEI); brand stewardship; and IT strategy.

THOUGHT LEADERSHIP

We are recognized as leaders in arts-health delivery and regularly share best practices with other organizations.
